**Subject:** RE: Reference Letter

To Whom It May Concern:

Woosh Wireless Limited, have a long standing relationship with Babylon Communications.

We call on the services of Babylon for a variety of different Wireless Broadband installation and troubleshooting requirements.

Babylon has provided technical support to our internal and external stakeholders for years now and we have always been delighted with the service, communication and results.

Sam manages his business with professionalism and integrity; he has attracted, maintained and grown a strong team that have great technical ability and tremendous experience. They update us quickly and work with a sense of urgency and customer focus.

I have no hesitation in recommending Sam and his team and am available to provide a verbal reference anytime.

My best contact number is 021 679 358.

Kind Regards

Kathryn Dunn  
Customer Services Manager
